

6516209627.txt

I am an over-the-road trucker and rely heavily on my satellite radio. I cannot quite often access local channels while I am on the road and with the satellite radio I always have clearness and clarity and know where to go for information when I need. I pay for this service. Why should I be penalized for something I pay for. This is no different than my paying for the convenience and variety offered by satellite T.V. Please reject petition 04-160.
